

AnthraSuite Internal Knowledge Base

Last updated: June 2026

This is a fictional internal document for demo and testing purposes only.

1. Product Documentation

1.1 Overview of AnthraSuite

AnthraSuite is a cloud-based platform that helps small and medium businesses manage projects, internal workflows, and customer support in a single unified workspace.

It provides modules for task tracking, ticketing, knowledge management, and analytics.

1.2 Core Modules

1. Projects

- Create projects, assign owners, define milestones, and track tasks.
- Supports Kanban boards, Gantt charts (Pro plan), and custom fields.

2. Support Desk

- Central inbox for customer tickets from email, chat, and web forms.
- SLA tracking, canned responses, and internal notes for agents.

3. Knowledge Hub

- Internal and external knowledge base to store how-tos, FAQs, and policies.
- Supports rich text, attachments, and granular access control.

4. Analytics

- Dashboards for ticket volume, response times, CSAT, and team performance.
- Export to CSV and scheduled email reports.

1.3 Plans and Limits

- Starter

- Up to 10 users, 3 active projects, 1,000 tickets per month.
- Email support during business hours.

- Growth

- Up to 50 users, unlimited projects, 10,000 tickets per month.
- Priority email support and basic SLA tracking.

- Enterprise

- Unlimited users, unlimited projects and tickets (fair usage).
- Dedicated CSM, SSO/SAML, advanced security controls, and custom SLAs.

2. HR Policies

2.1 Working Hours and Attendance

- Standard working hours are 9:30 AM to 6:30 PM, Monday to Friday.
- A 60-minute lunch break is typically taken between 1:00 PM and 2:30 PM.
- Employees are expected to log their attendance through the HR portal each day.

- Regular remote work is allowed up to two days per week with manager approval.

2.2 Leave Policy

- Annual Leave

- Full-time employees accrue 24 days of paid annual leave per calendar year.
- Leave must be requested at least 3 working days in advance, except in emergencies.

- Sick Leave

- Employees are entitled to 12 days of paid sick leave per year.
- A medical certificate may be requested for absences longer than 2 consecutive days.

- Other Leave

- Public holidays are observed according to the company holiday calendar.
- Parental and bereavement leave follow applicable local regulations.

2.3 Code of Conduct

- Employees must treat colleagues, customers, and partners with respect and professionalism.
- Harassment, discrimination, or retaliation of any kind is strictly prohibited.
- Confidential information obtained through work must not be shared with unauthorized parties.
- Conflicts of interest must be disclosed to the HR team or reporting manager.

3. Technical Guides

3.1 Environment Setup for Developers

1. Prerequisites

- Node.js (LTS), Python 3.10+, Git, Docker.
- Access to the internal Git repository and package registry.

2. Local Setup Steps

- Clone the main repository from the internal Git server.
- Create a `.env.local` file using `.env.example` and set local configuration values.
- Run `docker compose up` to start dependent services (database, cache, message broker).
- Run `npm install` and `npm run dev` (for frontend) or `uvicorn app.main:app --reload` (for backend).

3.2 Deployment Workflow

- All changes must be merged through pull requests with at least one peer review.
- The `develop` branch is automatically deployed to the staging environment.
- The `main` branch is deployed to production after passing automated tests and smoke checks.
- Rollbacks can be performed by redeploying the last known good release from the CI/CD dashboard.

3.3 Logging and Monitoring

- Application logs are centralized in the logging service and retained for 30 days.
- Critical errors trigger alerts in the on-call Slack channel.
- Service health and performance metrics are visualized in the monitoring dashboard.
- On-call engineers must acknowledge alerts within 15 minutes and document incident timelines.

4. Customer FAQs

4.1 General

****Q: What is AnthraSuite used for?****

AnthraSuite is used to manage internal projects, customer tickets, and knowledge articles in one place, helping teams collaborate and respond to customers faster.

****Q: Which platforms does AnthraSuite support?****

AnthraSuite is accessible through modern web browsers and mobile apps for Android and iOS.

4.2 Billing and Subscription

****Q: How is billing handled?****

Billing is monthly or annual, based on the selected plan and number of active users.

****Q: Is there a free trial?****

Yes, new customers receive a 14-day free trial of the Growth plan without requiring a credit card.

****Q: What is the refund policy?****

For annual plans, customers can request a prorated refund within 30 days of renewal if they are not satisfied. Monthly subscriptions are non-refundable but can be canceled anytime.

4.3 Support and Service Levels

****Q: What support channels are available?****

Support is provided via email and in-app chat for all paying customers. Enterprise customers also receive a dedicated account manager.

****Q: What are the standard SLAs?****

For Growth and Enterprise plans, critical issues are acknowledged within 1 hour during business hours. Non-critical issues are typically addressed within 1 business day.

5. Process Documents

5.1 Incident Management Process

- Classification

- Incidents are classified as P1 (critical), P2 (major), P3 (minor), or P4 (informational).

- P1 Incident Handling

- Trigger: Major outage or data loss affecting many customers.
- The on-call engineer immediately starts mitigation and assembles an incident channel.
- A customer-facing incident notice is published on the status page within 30 minutes.
- A post-incident review is conducted within 5 working days.

5.2 New Feature Request Process

1. Collection

- Feature requests are captured through the feedback portal, support tickets, and internal proposals.

2. Prioritization

- The product team reviews requests during the fortnightly planning meeting.
- Items are prioritized based on impact, effort, and alignment with the roadmap.

3. Delivery

- Approved requests are added to the backlog and scheduled into sprints.
- Release notes are published with each deployment and shared with customers.

5.3 Employee Onboarding Process

- Pre-Joining

- HR shares offer letter, policy documents, and first-day instructions.
- IT prepares necessary hardware and access credentials.

- First Week

- New hires complete mandatory training and read key policies.
- Manager assigns a buddy and defines initial tasks.

- First 90 Days

- Clear goals are set and reviewed at 30, 60, and 90 days.
- Feedback is collected from the new hire and manager.

6. Compliance Guidelines

6.1 Data Protection

- AnthraSuite processes customer data only for providing and improving its services.
- Access to production data is restricted to authorized personnel with a valid business need.
- All data in transit is encrypted using HTTPS, and data at rest is stored on encrypted volumes.
- Customer data exports and deletions are handled upon verified owner request within a reasonable timeframe.

6.2 Access Control and Authentication

- All internal tools require individual accounts; shared accounts are not permitted.
- Multi-factor authentication (MFA) is required for administrative access where available.
- Role-based access control is used to ensure that users only see data relevant to their role.

6.3 Regulatory Compliance (High-Level)

- The company aims to follow applicable data protection principles such as data minimization, purpose limitation, and storage limitation.
- Industry-specific or regional regulations (e.g., data localization, sectoral guidelines) are evaluated before entering new markets.
- Any legal or compliance questions must be escalated to the compliance lead or legal advisor.

6.4 Reporting and Audits

- Security incidents and suspected data breaches must be reported immediately to the security team.
- Periodic internal audits review access logs, configuration changes, and policy adherence.
- Employees are expected to complete mandatory compliance training annually.
